

FOR IMMEDIATE RELEASE:

Accept mobile payments

Buy your PIN's with NoChex

Tuesday, 18th November 2003.

Online customers now have an extra option when it comes to accessing digital content via Surfpin's micropayment system. They can purchase multiple PINs via Nochex and use them as and when required.

The low value PINs are used as tokens in exchange for access to digital content and downloads etc.

The Nochex email money system allows users to purchase PINs on their Debit Cards. It is proven, fast and secure and the PINs are emailed directly to the user for immediate use.

Jerry Webb, Sales Director at Surfpin comments: The Nochex system adds a further dimension to our service and offers an extra alternative to consumers holding Debit Cards from UK banks. The Nochex option can be added to any of our payment windows and will certainly help to drive UK revenues.

About Surfpin

Surfpin is a secure payment method which enables customers without credit cards to purchase digital content and services quickly, safely and securely via their telephone. The Surfpin payment method is currently available to more than two billion people across 30 countries and in 15 different currencies, driving global e-commerce. Surfpin can only be used to pay for and access content suitable for all ages and protects the customer's identity. No personal information is required to make a payment, giving greater peace of mind for parents of younger users.
