

FOR IMMEDIATE RELEASE:

Accept mobile payments

Surfpin Offers PayPal As Additional Purchase Option

Friday, 13th December 2002.

Surfpin has added the ability to select Paypal as an option when buying online with its micropayment service.

PayPal offers payment with protection via Credit Cards and Debit Cards and takes the form of an online account which can be used to send and receive payments in US Dollars, UK Pounds, Euros, Japanese Yen and Canadian Dollars.

This trusted system is already well known to the thousands of people that use the bigger auction sites everyday. Now account holders can use it to buy PIN's, which are used in turn to purchase the digital content of our client websites.

This will give online merchants fresh opportunity to move safely into international markets and reap the benefits of doing so.' adds Jerry Webb, Surfpin's Sales Director.

For more information about the Surfpin payment method please contact:

About Surfpin

Surfpin is a secure payment method which enables customers without credit cards to purchase digital content and services quickly, safely and securely via their telephone. The Surfpin payment method is currently available to more than two billion people across 30 countries and in 15 different currencies, driving global e-commerce. Surfpin can only be used to pay for and access content suitable for all ages and protects the customer's identity. No personal information is required to make a payment, giving greater peace of mind for parents of younger users.
